The Lifetrain Trust

By supporting our Annual Golf Day you will be making a positive difference to the lives of young people. **The Lifetrain Trust touches the lives of 1000's of young people every year, enabling them to get back on track, reach their goals and gain confidence, self esteem and knowledge.**

Lifetrain is dedicated to helping all young people achieve their potential through non-formal education. We give individuals unique opportunities through training, education and life experiences, by encouraging and developing vital skills such as teamwork, leadership and social skills.

Lifting Young People and influencing the way they lead their lives provides an opportunity to make connections that count for the individuals, their families and the local community. Not everyone can get along with the standard form of educational achievement and for those who find it all too much of a struggle; it can seem like a mountain too high!

That's why we get involved at a local level to deliver a range of interventions that bring us alongside young people to help them improve their learning experiences and outcomes and gain new confidence in their abilities.

Lifetrain makes a real difference to young people's lives through its various activities by focussing on young people identified as "vulnerable" and in need of support

'Gatton Manor Golf Course—With multiple water challenges and the longest hole in the South East, it tests golfers of all levels and ability. Play the course the PRO'S play and be part of a worthwhile cause which helps thousands of children and young adults across the county'.
